

Figure 1

Figure 2

FIG. 3 is a schematic diagram of an optical system 200, showing a light path through a coupler assembly, an interferometer assembly, and a detector assembly. The light path is indicated by a thick line. The coupler assembly includes a coupler 305 and a lens 360. The interferometer assembly includes a beam splitter 310, a mirror 313, and a lens 361. The detector assembly includes a detector 340 and a lens 370. The light path enters from the left, passes through the coupler assembly, then the interferometer assembly, and finally the detector assembly. The light path is labeled with various reference numerals: 111, 311, 362, 312, 363, 364, 310, 365, 324, 340, 375, 250, 112, 309, 115, 308, 305, 300, 360, 302, 306, 301, 307, 303, 361, 314, 368, 369, 342, 374, 343, 373, 341, 110, 321, 370, 366, 322, 325, INTERFEROMETER ASSEMBLY, 320, 367, 323, 41, 41.
